Dave had it pulled up from ECHO in the response room.

It looked like RCRA inspected several times through the years up to 2012. I didn't see any penalty/violation info. CAA (not sure if it was EPA or KDHE) inspected in 2015 resulting in \$6,000 penalty and then inspected this past March 2016 but compliance status from that wasn't available.

It does not appear that we have ever done a CAA 112r inspection.

Several media queries want information about past violations at the facility. I need that information to provide to them. Ken wants the information also. Thanks.
